SHARP

AL-2030 | Copiers

Sharp's advanced-laser small business copier / printer is an uncomplicated solution to an everyday business need. This powerful copier/printer offers the conveniences of more advanced machines in an easy-to-use device. With the ability to make up to 20 copies per minute and 16 computer printouts per minute, this machine can handle single or multiple projects. To top that off, with features like a 50-page document feeder and the ability to handle multiple paper sizes this copier/printer is ready for practically any business project.
